

"PROVIDING A WINDOW INTO  
THE HUMAN BODY....THROUGH  
OUR ADVANCED IMAGING CENTERS"

Pushing Technology To New Levels.....

## BREAST MRI

**B**REAST MRI is not a substitute for a mammographic examination but is a valuable tool for determining the local extent of breast cancer disease when this is unclear based on physical examination and standard imaging techniques. Salem Radiology is pleased to bring this technology to the Salem Community as the region's most recommended Advanced Women's Imaging Center.
